APPROPRIATIONS UPDATE JUNE 17, 2019

The House bill is scheduled to go to the House floor on Wednesday. The House is combining CJS into a “minibus” with Agriculture-FDA, Interior-Environment, Military Construction-VA and Transportation-HUD. The Senate has delayed its markup until after July 8th as there is no agreement between the House and Senate on the budget caps. I have also included the previous chart on the House markup for your reference.

The House Rules Committee will begin reviewing amendments tomorrow at 5:00. The full list of amendments can be found [here](#). There do not appear to be forensics related ones but below are the juvenile and criminal justice-related amendments. Thanks Rachel!

**FORENSIC FY20 BUDGET**

**LANGUAGE IN THE HOUSE APPROPRIATIONS COMMITTEE**

*Byrne/JAG funds*—The Committee advises that some Byrne/JAG funds be directed to provide newer, more efficient forensics testing tools for rural jurisdictions. The Committee requests additional consideration be given to applicants who seek to hire service-connected disabled veterans. The Committee encourages the Department to support the use of these grant funds for the purchase of fentanyl detection equipment.

*Forensic Sciences.*—The Committee provides $1,500,000 above the fiscal year 2019 amount for forensic science research. Additionally, the Committee provides $3,000,000 to support the Organization of 22 Scientific Area Committees and $1,000,000 to support technical merit evaluations previously funded by transfer from the Department of Justice.

*Forensics.*—The Committee encourages National Institute of Justice (NIJ) to explore partnerships with accredited universities of higher education for the purpose of providing national learning opportunities for law enforcement, district attorneys, and primary care physicians within functioning forensic laboratory and death investigation facilities. These partnerships should focus on collaboration between State departments of forensic science working in partnership with universities and local district attorneys, to provide a facility of prominence for forensic science education, training, research, and service, which will benefit current practitioners in the field as well as future forensic scientists.

*DNA initiative.*—The recommendation includes $142,000,000 for DNA-related and forensic programs and activities, an increase of $12,000,000 above the fiscal year 2019 level and $37,000,000 above the request. Within the funds provided, the Committee provides $8,000,000 for Post-Conviction DNA Testing grants, $4,000,000 for Sexual Assault Forensic Exam Program grants, $30,000,000 for other State and local forensic activities including civil rights cold-cases, and $100,000,000 to meet the purposes of the Debbie Smith DNA Backlog Grant Program, which is an increase of $10,000,000 above the fiscal year 2019 level for this program. The Committee provides funding separately for this purpose to
increase transparency and oversight of DNA Initiative funding.

**Missing and exploited children programs.**—The recommendation includes $85,000,000 for missing and exploited children programs, which is $3,000,000 above fiscal year 2019 and $4,000,000 above the request. The Committee expects the Department to allocate $40,000,000 for task force grants, training and technical assistance, research and statistics, and administrative costs for the Internet Crimes Against Children (ICAC) program. The Department is urged to include in its ICAC Task Force grant solicitation a prioritization of proactive investigations of suspects possessing, distributing, or producing violent and sadistic child sexual abuse imagery. The Committee expects the Department to allocate $1,000,000 to hire and equip wounded, ill, or injured veterans as forensic analysts or investigators to support child exploitation investigations.
